

Part Number	MT14254
Part Name	Domino Inkjet Printhead
Part Description	Domino Inkjet

1. To To Printhead

TTO is a high-resolution, high-speed, and high-capacity inkjet printer. It is designed for high-volume, high-speed printing of variable data and graphics. The TTO is a true thermal transfer printer, meaning it uses heat to transfer ink from a ribbon to the substrate. This results in high-quality, durable prints that are resistant to fading and wear. The TTO is available in a range of models, from desktop to floor-standing, and can print on a wide variety of substrates, including paper, plastic, and metal. The TTO is a versatile and reliable printing solution for a wide range of applications, from business cards and brochures to labels and packaging.
