

Q1:What is your main products of ink?

A:Cheef ink manufactures a full line of high quality, low cost alternative inks, makeup, and cleaners for Continuous Ink Jet (CIJ), Drop on Demand (DOD) and High-Resolution industrial printers and coders. Innovative technology is the core of our business, and our inks are trusted alternatives to products from many OEMs including Videojet, Domino, Imaje, Marsh, Citronix, Linx ,Metronic,Rottweil,and more.

Q2:Which products your ink can be used ?

A:Cheef ink can used on metal, glass, PVC, other plastics, and laminated paper with pigmented inks for use on darker substrates and available in white, gray, silver, and light blue,and so on.

Q3: Which industry of your ink used?

A: Chief inks are used in a wide variety of industries for many different applications, including the automotive, food, beverage, electronic, consumer products, wire cable, pharmaceutical Industries and so on.

Q4: Is your ink compatible?

A: Yes, Chief ink can develop the inks for use in your current coding and marking equipment. Whether the ink you've been using is out of stock, been discontinued, too costly or under performing, we can replicate and improve upon OEM manufactured ink. The most important is these inks are guaranteed compatible with your equipment. Just change out the ink, possibly run a flush, and you're ready to go.

Q5: How is your ink quality?

A: All of our inks are developed in our on-site lab which enables us to design and manufacture inks and fluids for the most difficult applications. We use only the highest quality dyes, pigments and materials in our inks. Our Custom ink successfully covers the most demanding manufacturing requirements. Our dye-based CIJ inks are suitable for most applications and are available in a vast range of solvents and colors.

Q6: How many colors of your ink?

A: We can produce the ink according to your request, and customize your color of ink, and make your own private label.

Our soft-pigmented CIJ inks deliver codes in intense colors such as yellow, red, and green, using a standard printer.

Q7: What is main priority of your ink?

A: At Chief Ink we possess a well-equipped Research and Development facility alongside substantial internal resources to offer custom-made products for specific applications.

DOD inks are carefully formulated using a four-stage filtration process, ensuring no sediment, sludge or residue. This minimizes print head maintenance and results in less downtime.

Chief Ink takes great pride in the high-quality, innovative ink solutions we've developed using our tested and proved R&D process methodology. Special ink applications include: UN-erased glass inks, high adhesion ink on PPR, PE pipe, High temperature ink, Non-transfer inks for cable and wire printing, Custom ink development for special applications, Hard pigmented white, blue and green inks

Q8: Can I try sample?

A: Yes, sure, you can try sample and do the test before bulk order.

Please contact us now, and let us do your best partner, you will save money, cost and time.

Q:How to choose our ink which applicable to our printer?

A:You can tell us your ink model or printer name ,or which product you printer printed, and which color of ink you used, we can provide with you corresponding ink.

Q9:Except products, what we can provide with you?

A:Our engineers are available with 24-hours hot-line to give you technical assist, we can solve issues within a wide area ranging from the traditional printing or marking methods to providing high-tech ink-jet fluids,characterization and optimization of various properties including print quality and functional performance.

Q10:How we can contact you?

A:You could email us (sales@cheef.cn) ,wechat/whatsapp/Tel.: +86-181-6857-5767 or send us inquiry through below.
