Q1: When will use the conveyor or paging machine?

A: When you use the printer, and not have production line, then need to use conveyor as the moving line. When your products are the film shape, then can use the paging machine to increase speed.

Q2: Can I customize conveyor or paging machine?

A: Yes, sure ,can customize as your request. Like size change, put on your logo and so on.

Q3: Can the convey or paging machine's speed change?

A: Yes, can be changed from 0-30 meters per minute, also if you need other speed, we can customize for you.

Q4: [How many years of the Warranty Time?](#)

A: Normally is 1 year, within this period we will send spare part free to you if there are any problems with them (except artificial damage).

Q5: [How is the quality?](#)

A: Quality of products will be strictly checked and every machine will be test to ensure it can works well before packaging.

Q6: [How to ship it?](#)

A: We provide the express, air shipping and sea shipping according to your order quantity or using your forwarder. We will provide the best suitable and economical shipping for you to choose.
