

## How to clear the trouble of Imaje 9232/9410/9450 inkjet printers?

We click on Password:

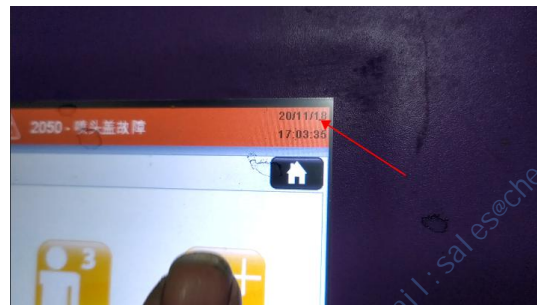

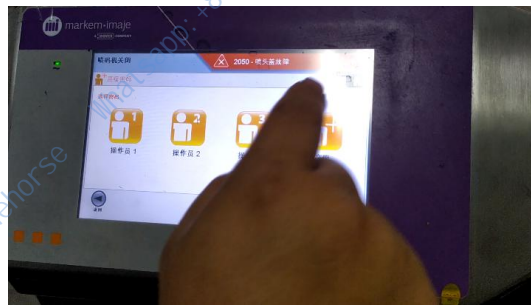

Then we must hold down this advanced password button for more than three seconds, and release it:

Then we enter the current password:

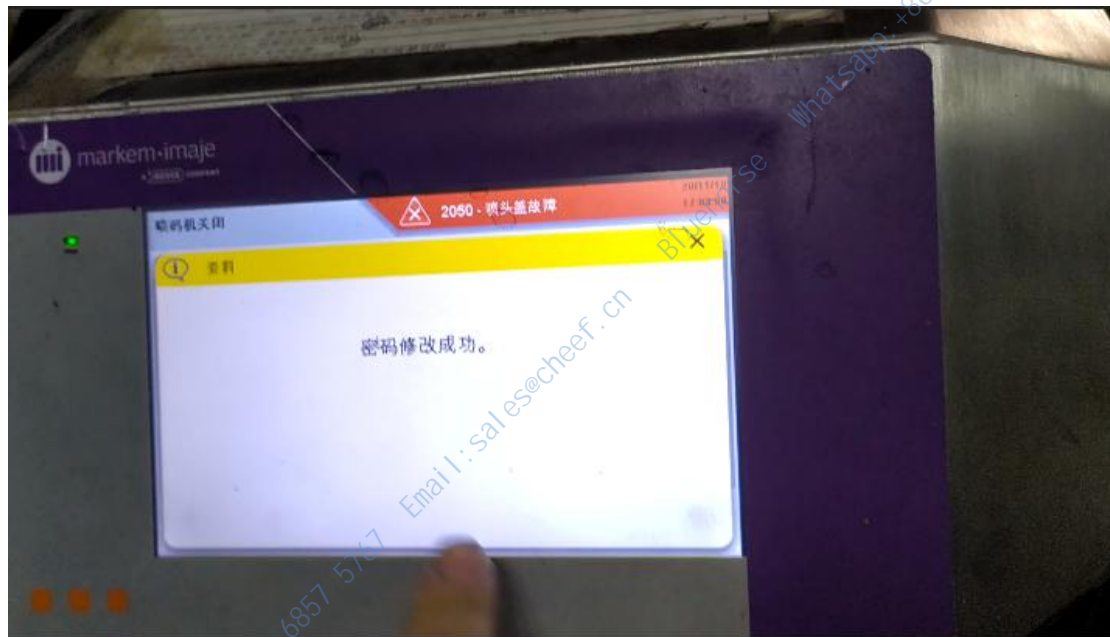

The current password is the password for this date:

Then we enter the advanced password and click OK:

"Password modification successfully" appears on the screen:

In this case, let's click on this fault:

There's a "Clear All" button here, and we can click on it:

This fault has been cleared:
